

Guardians of the Galaxy (toss, bump, set,)

Equipment needed: Hula Hoops, Disc, Small Spots, Volleyballs

-Setup 6 Hula Hoops(Infinity Gauntlet) along the serving line one for each color infinity stone (red, orange, yellow, green, blue, purple). Setup 6 small circles(planets) made of disc cones on the court and place one infinity stone on each planet.

Infinity Stones:

- Red – Reality stone
- Orange – Soul stone
- Yellow – Mind Stone
- Green – Time Stone
- Blue – Space Stone
- Purple – Power Stone

Storyline: The Guardians of the galaxy are teaming up to save the universe! The mad titan Thanos is heading for earth and The Guardians must team up and work together to travel through space and collect the infinity stones and get them back to earth so they can build

their own infinity gauntlet to protect the universe from Thanos' army. Each stone must be found and returned to the correct spot in the infinity gauntlet. If all the stones aren't found and collected in time their universe will be destroyed by Thanos and his army.

In order to collect the stone players will line up on the sideline. The first player will run to one of the planets and get in good ready position to receive the toss and call for the ball, a coach or teammate will then toss the ball from a standing spot to the player and the player must bump or set the ball back to the player or coaching. If a good set or bump is made the player on the planet will then collect the stone and put in the correct spot on the infinity gauntlet(the hula hoop that matches the color of the stone).

- ADV variation: Player will stand in the hula hoop(Infinity Gauntlet) and toss the ball to their teammate standing on the planet, after they set or bump ball must be caught on the return with at least one foot in the correct hula hoop matching the stone. To make it really tough make sure the planets aren't directly lined up in front of matching hula hoop on the infinity gauntlet.
